**Portfolio:** [viduzx.xanvia.tech](https://viduzx.xanvia.tech)

## PROFILE

---

Fresh Graduate in Computer Science with a keen interest in the Software Engineering and Artificial Intelligence industries. A dedicated self-learner and interested in Scalable solutions, motivated by solving real-world challenges and eager to work with teams that embrace innovation and rapid technological changes.

## WORK EXPERIENCE

---

- **FullStack/AI & Automation Engineer - Intern (2025 Sep-2025 Dec)**

*Taino Spain SL - Remote*

Developed full-stack applications with advanced AI integrations. Designed and implemented RAG pipelines using LLMs, embedding techniques, and vector databases while addressing real-world challenges such as rate limiting and hallucination reduction. Collaborated with cross-functional teams to deliver AI-driven solutions within tight deadlines.

- **Freelancer Full-Stack Developer (2024-2025)**

Designed and developed end-to-end web applications using modern frameworks (React, Next.js, Express.js, FastAPI etc). Collaborated with teams to design, develop, and deploy products, ensuring on-time delivery.

## PROJECTS

---

- **Chatbot & Study Plan Generator**

- *Role:* AI/FullStack Developer

- *Technologies:* FastAPI, Langchain, ChromaDB, OCR, Websockets, React.js

- *Description:*

- \* Public question answering chatbot service and personalized study plan generation according to past student transcripts, NCAA + Florida pathway guidance and user preference.
- \* Integrated RAG pipeline and tools for different use case using Langchain and LLM integrations (Gemini API).
- \* Added Simple OTP based authentication, delayed responses, Rate limiting for security enhancements.

- **Project BisDos — [app.bisdos.com]**

- *Role:* Lead Full Stack Developer

- *Technologies*: Next.js, Express.js, MongoDB, RESTful APIs, Docker
- *Description*:
  - \* Designed and developed a dynamic web platform that allows users to create and manage customizable NFC-enabled business cards and portfolios.
  - \* Integrated **AWS S3** for secure media storage and leveraged IAM for access control and user permission management.
  - \* Designed scalable RESTful APIs with passport.js & Google SSO, ensuring secure user authentication and smooth role-based management.
- **Student Moves — Web Application - [studentmoves.co.uk]**
  - *Role*: Full Stack Developer
  - *Technologies*: Next.js, Nest.js, Postgres, Redis, SendGrid, Stripe
  - *Description*:
    - \* Developed an UK based Property Rental Application for students with utility payment facilities.
    - \* Features included: form handling, validating, PDF generation, agentic access controlling, reporting and payment gateway.
    - \* Established a CI/CD pipeline with Github Action, docker and VPS, to ensure Automated testing and validation before the production.

## EDUCATION

---

### University of Peradeniya

(2021 – 2025)

Completed: BSc (Hons) in Computer Science

Final GPA: 3.68

### Ananda College, Colombo 10

(2011 – 2019)

GCE Advanced Level 2019: 1A, 2C (Physical Stream)

GCE Ordinary Level 2016: 8As and 1B

## SKILLS

---

|                   |                                                        |
|-------------------|--------------------------------------------------------|
| <i>Frameworks</i> | Nest.js, Express.js, Next.js, Node.js, FastAPI         |
| <i>Languages</i>  | TypeScript, Python, Java, C, C++                       |
| <i>Tools</i>      | Docker, Linux, Github, TypeORM, TailwindCSS, ShadCn UI |
| <i>Cloud</i>      | AWS S3, SQS, Lambda Function, SNS, VPS hosting)        |
| <i>Databases</i>  | MongoDB, PostgreSQL, MySQL, Redis, VectorDBs           |

## EXTRA CURRICULAR & ACHIEVEMENTS

---

- **Vice President (2024-2025)** - Computer Society UOP (CSUP)
- **Webmaster (2024-2025)** - IEEE Computer Society UOP Branch
- **Public Relation Officer (2023-2024)** - SIREN
- **7 th place - Manthra (CTF)** - IEEE NSBM University
- **Top 15 - Mini Hackathon (Data Science)** - Stat Circle UOC
